

# Nervous System (Monographs on Pathology of Laboratory Animals)

*Thomas C. Jones, U. Mohr*

This is the sixth volume in a set of concise, well-illustrated and authoritative studies on natural and experimental lesions of laboratory animals. The Monographs on Pathology of Laboratory Animals are designed to facilitate communication among those involved in the safety testing of foods, drugs, and chemicals. The complete set will cover all organ systems and is intended for use by pathologists, toxicologists, and others concerned with evaluating toxicity and carcinogenicity studies. This volume on the nervous systems covers in detail the effects of neurotoxins, neoplasms, infections, and inherited diseases and others of unknown etiology.
